Status: Published

Notice under clause 22.2 of the Terms and Conditions Relating to Token Sale (28 March 2018)

This notice is given by Holo Limited, a company incorporated in Gibraltar (registration number 116305), to holders of the ERC-20 token known as HOT.

1. Background

The Terms and Conditions Relating to Token Sale dated 28 March 2018 (the "Terms"), including Schedule 1, describe a potential future redemption of HOT for HoloFuel at a ratio of one HOT to one HoloFuel, to be made available if and when the Holo Platform was developed and deployed, and state that any such redemption would be governed by platform terms published at that time.

2. Assignment

By a Deed of Assignment and Assumption dated November 1, 2026, Holo Limited has assigned to Net Zero FZC, a Zanzibar Digital Free Zone Company (company identifier ZDFZ-QME5S9FR), all of its rights, obligations, functions and discretions in respect of making a redemption mechanism for HOT available and delivering one unit of HoloFuel for each unit of HOT redeemed. Net Zero FZC has assumed those rights and obligations.

3. Platform Terms

The redemption of HOT for HoloFuel is governed by the HoloFuel Platform Terms published by Net Zero FZC at netzero.zone. For the purposes of the redemption described in the Terms, those HoloFuel Platform Terms are the platform terms referred to in its Schedule 1. Holders who wish to redeem HOT for HoloFuel should read them in full before doing so.

4. Commencement

The redemption mechanism becomes available on the date stated in the Platform Terms, and remains available for not less than the minimum period stated there.

5. Holo Limited's role

The redemption mechanism is operated by Net Zero FZC under its licence. Holo Limited's acts in relation to the redemption are the assignment described above and the publication of this notice.

6. Effect on the Terms

Nothing in this notice amends the Terms except as stated here. The limitation of liability, dispute resolution and all other provisions of the Terms continue to apply as between Holo Limited and holders in respect of the Contribution Period.

7. Information

Questions about the redemption mechanism, eligibility, the HoloFuel system and the Platform Terms should be directed to Net Zero FZC through netzero.zone. Holo Limited cannot answer them.
